Education

Jaypee University of Engineering and Technology

2022 – 2026

B.Tech in Computer Science Engineering, CGPA: 8.3

Guna, Madhya Pradesh

Experience

Accenture

May 2025 – July 2025

Associate Software Engineer Intern

- Managed remote database infrastructure and ABAP development within an Agile team environment.
- Responsible for optimizing query performance and securing data access for MySQL instances on Supabase.
- Configured role-based access control and optimized database indexes to streamline backend operations.

Indian Institute of Technology, Bombay

Aug 2024 – Jan 2025

Software Developer Intern

- Contributed to Project Udaan, using C++ and Qt Creator to build software that translates English books into Indian languages.
- Developed new UI components and enhanced features for Udaan Version 4.7 which increased interface responsiveness.
- Identified and resolved 30+ UI-related bugs and layout inconsistencies, improving overall software stability.
- Authored tailored setup guides and technical documentation, reducing new developer onboarding time and codebase setup duration by 80%.

Projects

Job Application Management Software | *JavaScript, MySQL*

- Engineered a system using Node.js and MySQL to track 50+ concurrent application statuses efficiently.
- Integrated node-cron libraries to automate follow-up reminders, increasing consistency.
- Implemented webhooks and observability tools to monitor viewership, reducing tracking latency.
- Optimized database schema for relational data, ensuring 100% accuracy in real-time status updates.

Retail Campaign Studio | *React, Generative AI, JavaScript*

- An AI-driven platform to generate retailer-compliant ad creatives from natural language prompts.
- Implemented a constraint-based compliance engine to enforce advertising rules (prohibited claims, safe zones, accessibility).
- Reduced manual creative effort through AI-assisted design + automated rule enforcement.

Technical Skills

Languages: C/C++, Java, SQL, Python, JavaScript

Coursework: Data Structures & Algorithms, Operating Systems, AI/ML, Computer Networks, OOPs, DBMS

Developer Tools: VS Code, Qt Creator, Android Studio, Postman

Technologies/Frameworks: Git, GitHub, Linux, Tkinter, Streamlit, API Development

Databases: MySQL, PostgreSQL, SQLite

Achievements

- * Finalist (Top 15 teams) at Dunnhumby India Hackathon, selected from 8,500+ national participants
- * Solved 400+ problems on coding platforms such as LeetCode (Max Rating: 1740) and Codeforces.
- * Secured 5 stars in Java programming and SQL Database on HackerRank.
- * Winner of the Resume Building Competition organized by the EDC Cell at JUET Campus.
- * Ranked in the 98.39th percentile among nationwide participants in the Naukri Campus Young Turks 2025.
